I am a passionate Full Stack Developer with over 4 years of hands-on experience building engaging digital solutions. I excel in challenging environments where each obstacle presents an opportunity for growth. I'm eager to continue pushing the boundaries of development and design while exploring emerging tools to provide a seamless user experience.

Experience

Front-End Developer | Digital Project Manager BFJ Digital - QLD, Australia

APR 2023 - MAY 2024 | MAY 2024 - NOV 2025

At BFJ, I work closely with clients to set expectations and manage projects, leading headless CMS development as well as API and custom tool integrations. Planning and building web applications using a modern React/TS stack.

- Web Applications Development
- CMS Development (WordPress, HubSpot & Shopify)
- React, Next.JS, TypeScript & Node.JS
- Headless Websites and SPAs Development
- APIs Implementation & Integration
- Wireframing, Branding & Design
- Project Management & Client Relationship
- Development CLIs & CI/CD Pipelines

Web Developer Digital Bazaar - QLD, Australia

NOV 2022 - APR 2023

At Digital Bazaar, I developed custom WordPress websites and Shopify stores using a variety of front-end styling libraries in a fully responsive, mobile-first approach and Next.js for implementing quick Marketing Landing Pages.

- Custom WordPress and Shopify Stores
- Web Intranets Development with Next.JS
- PHP, Liquid, HubL & JavaScript
- SASS/SCSS, LESS & Tailwind

Junior Web Developer Handle-it Design - DF, Brazil

NOV 2021 - MAR 2022

At Handle-it, I was responsible for developing, supporting, and troubleshooting applications, as well as performing optimisations and applying SEO standards.

- React Js for UI Development
- Data Object Modeling & Structure
- SEO-ready Development & Best Practices
- Performance Optimisation & Lighthouse Analysis

Data Handling Internship State's Civil Police - DF, Brazil

FEB 2020 - DEC 2021

My key responsibilities included implementing, manipulating and consuming RESTful APIs and collaborating with other team members to ensure endpoints availability.

- Collaborating with other team members to ensure endpoints availability
 - Liaising with officers and ensuring confidentiality
 - Manipulation/Consumption of APIs
-
